### **Oral/Poster**

The entire abstract should be written in Times New Roman, single spaced, with all page margins set to 2.5 cm. The title should be in bold, font size 16. The remaining text (including the full names of the authors, affiliations, indication of oral or poster presentation, abstract text, keywords and acknowledgements, if applicable) should be written in font size 13. The name of the corresponding author should be underlined, and the email address should be provided after the affiliations. The maximum number of keywords is five. The keywords should be separated by commas. The abstract text should not contain indentation or citations. The abstract should briefly include the following elements: introduction, aims of the study, materials and methods, results, discussion and conclusions. These elements should be presented within a single paragraph, without using section headings. The length of the abstract must not be less than 300 words (excluding the title, authors, affiliations, keywords and acknowledgements, if applicable).
