European Weed Research Society (short name EWRS)

Registered in the Commercial Register of the Chamber of Commerce of Arnhem, number 40123440.

Contact information

Postal address:

EWRS

PO Box 28

6865 ZG Doorwerth

The Netherlands

Email: ewrs@bureaupost.nl

Why do we collect data?

The EWRS is a members Society. As such to maintain a membership administration we collect and store name and address of our members. Our invoicing is done digitally so we also store e-mail addresses. We also use these email addresses when sending newsletters. The correspondence address of our actual members is sent to Wiley Publishers in order to deliver our Journal Weed Research to members of concern by postal mail.

Recipients of the Personal data

We do not share the stored data with third parties, so it is only used for EWRS related operations.

How long is the data stored?

Customer and supplier data is retained for up to seven years after a customer last purchased a service or product or a supplier supplied a product or service.

You have the right to inspect, correct or delete your data

If you would like to know what data we have stored about you, or if you would like to have your data modified or deleted, please contact info@bureaupost.nl. In case of a membership unsubscription you can require removal of all your stored data in the society's membership database.

You have the right to object to the processing of your Personal data

You can also withdraw your consent to the processing of your data if you have given your consent. In both cases, please send a message to info@bureaupost.nl. If you have a complaint about how we are handling your data, you have the option of lodging a complaint with the [Dutch Data Protection Authority \(Dutch DPA\)](#).

Don't wish to provide use with your Personal data?

By using our services, you agree to our General Terms and Conditions. These terms and conditions state that we need your Personal data to perform the contract or agreement. If you do not agree with the provision of your Personal data, you must inform us of this before the agreement is concluded.

Automated decision-making or profiling

We do not use automated decision-making or profiling within our organisation. However, we do use filters based on properties, such as which product or service a customer has in order to be able to send targeted mailings.
